

Metalworks Capability Statement

CTA Group fills a unique segment of the building and construction market by providing specialized building products for the orientation of people with vision impairment, as well as more traditional products such as floor coverings, metal works and joinery, together known as finishing products.

CTA Group inspires clients to work collaboratively by improving the built environment with the specification of products that meet high sustainability standards. CTA Group's mantra is that there is greater "Strength in Partnership".

Commitment to risk mitigation

CTA has delivered several hundred million dollars in fit-out construction works with a steady increase in project size, a focus on customer retention and consistently delivering projects on time and within budget.

Since CTA's inception in 2004, the Group has consistently grown its year-on-year revenue, irrespective of the prevailing business cycle. Our diversified business, which operates across each of Australia's largest cities and extensive customer base, has meant that we don't rely on a single source of revenue.

Our robust and stable financial performance is backed by a well-capitalised balance sheet, with net assets built up steadily over time through retained earnings and limited borrowings.

Metalworks

400 JOBS COLLABORATE WITH ARCHITECTS TO DELIVER THE GREATEST VISION FOR THE PROJECT'S CONCLUSION.

CTA Metal Works is a dedicated cell within the CTA group that is capable of delivering end-to-end steel fencing and fabrication solutions to the commercial and civil sectors including: chain link and tubular fencing; proprietary hoarding systems, storage cages; standard swing and automated gates; specialty sports enclosures including baseball, cricket and the like; as well as other metal works products all manufactured in-house to the highest quality standards

With a full in-house design, welding, project management and installation team, over the last 2 years, CTA Metal Works has delivered 3 VSBA school bundles including X primary schools and X high schools with over X linear meters of perimeter fencing; x linear meters of 3.6m high sports fencing and many other forms of enclosures totaling circa \$Xm

Metalworks

Clyde Primary & Secondary school.

Hutcinsons Builders employed CTA to install nearly 1,000 meters of fencing according to various specifications around Clyde Primary school. Working through challenges with our Design team made the schedule and installation was completed without issues.

CTA PRODUCTS

- 18 hooped bike rack
- 75M of service enclosures
- 168M of 6m high fencing
- 28M of bike store enclosures Bin store enclosure
- 20m of timber fencing
- 546M of external tubular fencing & gates
- 65M of 3600H Fencing

Fencing, Enclosures & Hoarding

We provide the best choice of solutions for chain-wire fence for business security protection.

Chain-wire Fencing

We offer a variety of chain-wire fencing options including railed, rail-less, cranked posts, barb wire, security razor wire, knuckle, knuckle barb and barb, heavy gauge, light gauge, PVC coated, galvanized and customizable options.
